2.1.3 Verification rules between report S 1.3 / S 2.13 and S 2.20 reporting 6

1 Introduction

This compendium groups all the verification rules that apply to the reports S 1.3 «Monthly statistical balance sheet» for money market funds and non-MMF investment funds except for non-UCITS investment funds[1] with a valuation of their assets less frequently than monthly and S 2.13 «Quarterly statistical balance sheet » for non-UCITS investment funds with a valuation of their assets less frequently than monthly.
The instructions relating to data collection are described in the documents Instructions and Report relating to these reports.

The objective of the present document is to describe the various internal consistency checks for these statistical reports as well as the consistency checks between these reports and the security by security (SBS) reporting and the S 2.20 reporting that the BCL undertakes after receiving the data.

We should like to stress the importance of the quality of the data transmitted to the BCL and the necessity to submit the data to the verification rules detailed in the technical documentation. Only a rigorous control undertaken during data production will allow to respect the quality requirements and avoid reporting delays. This point is all the more important since the data collected will be checked by the ECB before aggregating it with the data of the other Member states. Any error or important negligence will have harmful repercussions on the reputation of the whole community of the Luxembourg financial institutions.

[1] Non-UCITS investment fund means a collective investment fund, which does not comply with requirements laid down in Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009. This type of investment fund is not subject to Part I of the Law of 17 December 2010 relating to undertakings for collective investment (“the Law”).

2 Verification rules

2.1 Permanent verification rules

Reports S 1.3 and S 2.13 are subject to two types of verification rules, namely internal rules and consistency rules with the security by security (SBS) reporting and the S 2.20 reporting.

2.1.1 Internal verification rules for reports S 1.3 and S 2.13

The following internal verification rules must be applied:

- For each line a valid value must be reported for all four requested breakdowns:
  - country code
  - currency code
  - economic sector code
  - maturity code
- All lines must have a credit trend; however, the following lines may have a debit trend:
  - 1-090010
  - 2-090010
  - 2-004000
- For lines 1-000000, 1-003000, 1-005000, 2-000000, 2-002050, 2-003000 and 2-004000, no breakdown is required.
  Hence, for these lines, the following codes must be used:
  - country code «XX»
  - currency code «XXX»
  - economic sector code «90000»
  - maturity code « I999-999»
- The amount reported in line 1-000000 must correspond to the amount reported in line 2-000000.
- The country code no breakdown «XX» may only be used for the lines mentioned in the report S 1.3 / S 2.13 attached to the instructions.
- The currency code no breakdown «XXX» may only be used for the lines mentioned in the report S 1.3 / S 2.13 attached to the instructions.
- The sector code no breakdown «90000» may only be used for the lines mentioned in the report S 1.3 / S 2.13 attached to the instructions.

- The maturity code no breakdown «I999-999» may only be used for the lines mentioned in report S 1.3 / S 2.13 attached to the instructions.
- The sector code «12100» State administration may only be used in combination with a country code of a country that has adopted the structure of a federal state.
  The list of countries that have adopted a federal structure is available in the document «Types of breakdowns: List of countries that have a federal structure».

2.1.2 Verification rules between report S 1.3 / S 2.13 and security by security reporting

The verification between S 1.3 / S 2.13 and the security by security reporting must be done by respecting the following preliminary condition:

The following verification rules are applicable:

- The amount reported in line 1-003000-XX-XXX-90000 of reports S 1.3 / S 2.13 must correspond to the total amount reported (*totalReportedAmount*) for the identifier of the balance sheet line 1-003000.
- The amount reported in line 1-005000-XX-XXX-90000 of reports S 1.3 / S 2.13 must correspond to the total amount reported (*totalReportedAmount*) for the identifier of the balance sheet line 1-005000.
- The amount reported in line 2-002050-XX-XXX-90000 of reports S 1.3 / S 2.13 must correspond to the total amount reported (*totalReportedAmount*) for the identifier of the balance sheet line 2-002050.
- The amount reported in line 2-003000-XX-XXX-90000 of reports S 1.3 / S 2.13 must correspond to the total amount reported (*totalReportedAmount*) for the identifier of the balance sheet line 2-003000.
- The amount reported in line 2-004000-XX-XXX-90000 of reports S 1.3 / S 2.13 must correspond to the total amount reported (*totalReportedAmount*) for the identifier of the balance sheet line 2-004000.

2.1.3 Verification rules between report S 1.3 / S 2.13 and S 2.20 reporting

The verification between S 1.3 / S 2.13 and the S 2.20 reporting must be done by respecting the following preliminary condition:

- The amount reported in line 2-004000-XX-XXX-90000 of reports S 1.3 / S 2.13 must correspond to the total amount reported (Total net asset value of the reference) for the identifier of the line 3020.
